Better enforcement
for fewer controls

INVITATION FOR THE **EURO CONTROL ROUTE** CONFERENCE 2015

Amsterdam
The Netherlands
June 17 - 18

INVITATION FOR EURO CONTROL ROUTE CONFERENCE 2015

It is with great pleasure and pride that we invite you to the annual conference of the Euro Control Route (ECR) to take place in Amsterdam, the Netherlands on June 17 - 18.

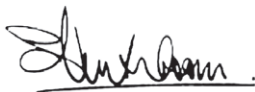

This meeting aims to provide an inspiring two-day programme that includes state-of-the-art enforcement experiences, an overview of developments in European road transport, an exchange of lessons learned, ideas and ambitions for the future.

It will be a multidisciplinary meeting, which brings together scientists, researchers, trendwatchers, police officers, inspectors and stakeholders of the road transport industry from all over Europe to exchange their views and ideas on the rapidly developing globalising economy and its consequences for inspections in terms of road transport. The conference will further focus on the influence of (digital) intelligence, the use of innovative tools, databases, knowledge, and experiences in order to achieve the main goal: better enforcement for fewer controls.

As the chairman of ECR, I am pleased to offer you an interesting programme, with the contribution of several experts and influential speakers to share their knowledge, experience and vision on enforcement of the European road transport legislation. Please find more about the speakers, the preliminary programme and facilities on the website www.euro-control-route.eu.

We look forward to welcoming you in Amsterdam!

With kind regards,

Dr. P.C.J. (Peter) Neuteboom,
Director Rail and Road Transport
Human Environment and Transport Inspectorate
Ministry of Infrastructure and the Environment,
President of ECR on behalf of the Netherlands

WEDNESDAY, JUNE 17, 2015
